

# Church of God Organizational/ World Wide Web Addresses

**July 2004** (with thanks to John Marmero Jr. for some updates; partial updates from NSE,  
Feb 2007, Mar 2008)

This list contains addresses of various churches, fellowships, study groups, websites and service-providing organizations that trace a history back to the Worldwide Church of God. Addresses for other church of God groups, such as the Church of God (Seventh Day), are also listed.

All addresses in the list are in the United States unless otherwise noted. Names of the founders, recognizable spokespersons or contacts of a particular group are given to help differentiate one listing from another.

Send any corrections, additions (or requests for removal of your organization or website where necessary) to the [webmaster of this site](#).

All links were tested as working at the time this list was last edited. Please note that due to the volatile nature of the Internet, website links are subject to change or may not work. Note also that we do not necessarily agree with any information given on external sites, and that you view all external sites linked from here entirely at your own risk.
